Statistical Comparison of Morningside Traffic Impact vs Dunduff Quarry Traffic

Showing remarkable difference of political support & Environmental Standards afforded to constituents.

Criteria	Morningside	Dunduff	Ratio worse
MSP supporting constituents.	1	0	100%
Councillors supporting constituents.	3	0	300%
Increase in daily truck movements.	164	500	305%
Hourly trucks.	20	52	260%
Operational hours per day	11	12	112%
Representations to Plan. Applic.	120	est. 1000	833%
Tributes to MSPs & councillors	4	0	400%
Average % age worse Impact	-----		288%

This would suggest that the constituent MSP and Councillors in Clydesdale (**Our political representatives, who choose not to represent us**), have a 288% higher threshold to Noise, Dust, Vibration, and other Environmental IMPACTs. Is there not EC standards? There is something very strange here? There is always the elections, where we get a chance to control our environment. Hope it is not too late!
